TCG CAPABILITIES

CLOUD
### Securely Scale Services as Demand Grows.

Through the latest cloud technologies, TCG helps Federal agencies modernize and migrate systems to the cloud in an iterative fashion that meets priority business needs, while minimizing costs and establishing application and supply chain security.

AGILE
Reduce Costs. Accelerate delivery.

TCG's Agile approach ensures consistent delivery of high-value software and applications for our clients in the Federal government. Agile allows us to break down silos between customers and engineering teams, while aligning our approach with customer needs.
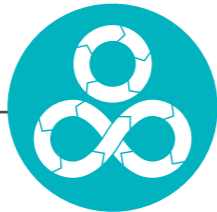

DEVSECOPS
Unify teams for efficient, secure delivery.

TCG's approach is built on collaboration, working efficiently across multiple teams and vendors to ensure security in each part of the application lifecycle.

ATLASSIAN
Reduce Costs. Accelerate delivery.

Through customization and configuration of Atlassian tools, TCG provides solutions for Agile software project management, data collections, inter-and intra-agency collaboration, and more.

TCG
POSITIVELY DISTINCT®

TCG delivers Agile and open IT solutions to the Federal government. We power the missions of Federal agencies, solve their most complex challenges, and expand the possibilities for them and the citizens they serve.

CORE VALUES

TCG has its heart on its sleeve. We live and die by our treasured Core Values, the simple directives promoted by our founder and taught to every TCG employee. Our pledge to all of our customers is that our company will always uphold these values and, if they are ever contravened or compromised by any employee or subcontractor, our CEO will personally take direct action.
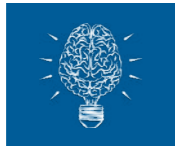

We are intelligent

We invest ourselves in the project

We prove our value

We are collaborative

We are fair, honest, and open

We value our families
